

S²⁻

Zinc sulfide

ZnS

Mineralogical Group: **sulfide**

S environment: **tetrahedral coordinance**

Crystal system:

Origin: **synthetic ?**

Chemical composition: ?

Preparation of sample:

Crystallinity state:

Acquisition mode: **transmission**

Date of acquisition: **28/06/2006**

X-ray absorption data (normalized): [ZnS.dat](#)

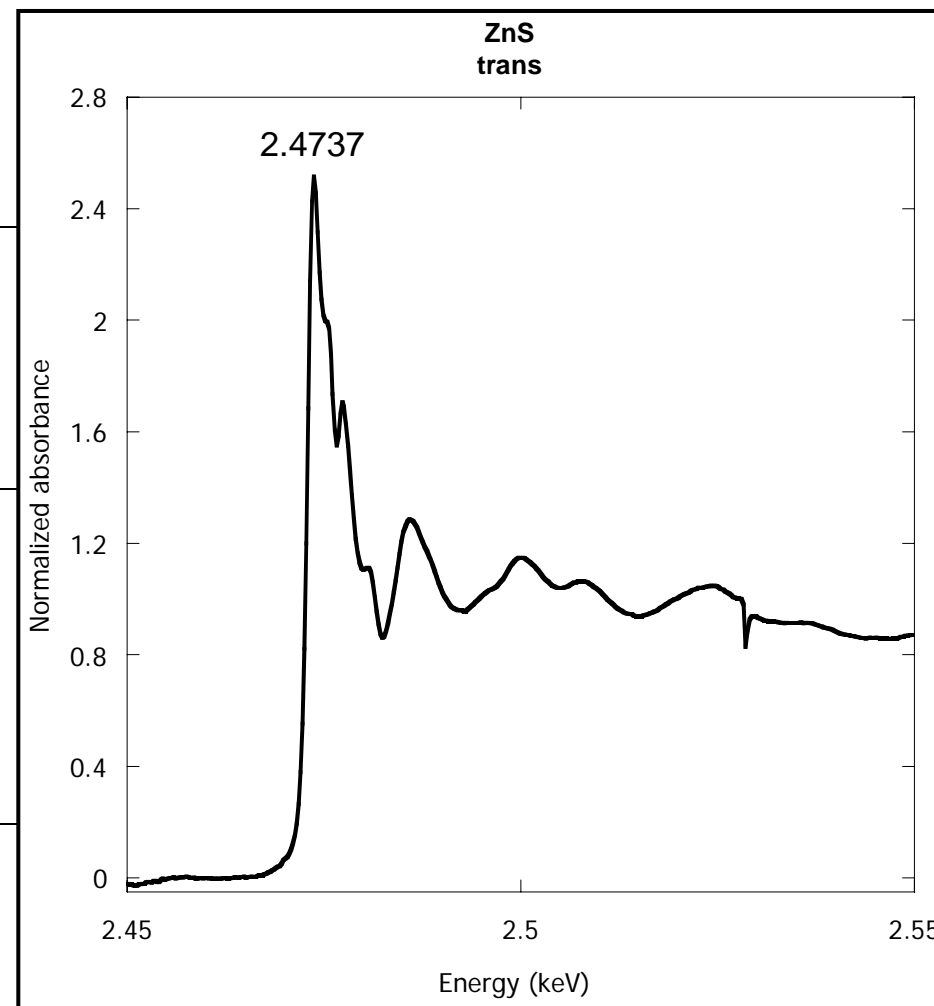

Calibration with **ZnSO₄**

Max of the “white-line” (s → p electronic transition) at **2.4825 KeV**

Contact person: **Boruchowska**
