

ESRF USER MEETING

3-5 February
2020

The annual event dedicated to the ESRF user community,
user science and future perspectives at the ESRF

3 FEBRUARY

8 tutorials for users

A wide range of theoretical and practical topics of direct interest to ESRF users including:

- ▶ The use of coherent X-rays for imaging and dynamical studies
- ▶ Exploitation of data for a variety of SR techniques

4 FEBRUARY

Plenary session day

- ▶ Keynote speakers:
 - Caterina Biscari**, ALBA synchrotron, Barcelona, Spain
 - Stephen Cusack**, EMBL, Grenoble, France
 - Vincent Favre-Nicolin**, ESRF, Grenoble, France
 - Kirsten M. Ø. Jensen**, University of Copenhagen, Denmark

- ▶ **Young Scientist Award**
- ▶ Facility report and “**Extremely Brilliant Source**” project
- ▶ **Poster** session, clips and prize
- ▶ **Welcome and Awards banquet**
- ▶ **Commercial exhibition** of synchrotron-related equipment

5 FEBRUARY

3 User-Dedicated Microsymposia

- ▶ **UDM1** In situ and operando X-ray absorption spectroscopy for the study of catalysts and functional materials
- ▶ **UDM2** Nanomaterials life cycle: from nanoengineering to public health
- ▶ **UDM3** Multi-crystal and serial data collection in structural biology

DEADLINES

- | | |
|-------------------------|-----------------------------------------------------------------------------------------|
| 10 November 2019 | Young Scientist Award nominations |
| 24 November 2019 | User-Dedicated Microsymposia abstract submission |
| 19 January 2020 | Registration (no late registration accepted)
Poster submission for prize and booklet |
